

SNOW SLED

ABSTRACT OF THE DISCLOSURE

5 A sled having a bottom 22, 122 surface with a pair of front runners 32, 132
curving toward one another from the front end 12, 112 and into parallel sections
directed into two pair of rear runners 34, 36, 134 or 136. The first and second pairs of
rear runners 34, 36, 134 and 136 have runners of each pair disposed on opposite sides
of a longitudinal axis (A) and both pairs 34, 36, 134 and 136 are disposed closer to the
10 longitudinal axis (A) than the parallel sections of the front runners 32, 132.

PRELIMINARY CLASSIFICATION: 280/18
